SUMMARY

Computer Science student (Class of 2027) who builds and ships software end to end: a C++ trading simulator, a publicly deployed calendar web app on AWS, and an AI-powered SaaS platform with Stripe billing. Hands-on experience in cloud deployment, technical support, and data reporting.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, SQL, HTML/CSS
Cloud & Tools: AWS, PostgreSQL, Git, Stripe, Microsoft Copilot Studio, Power BI, VMware
Practices: Data structures, debugging, Agile development, usability testing
Currently Learning: CI/CD pipelines

PROJECTS

Stock Trading Simulator — C++ Order Book & Matching Engine *In Progress*

- Building a stock trading simulator in C++ with an order book, matching engine, trading strategy, and portfolio tracking, designed to apply multiple core data structures.
- Track per-symbol trade history and best prices using maps; display results in a live terminal dashboard that redraws as trade events process.

Tech: C++, STL, Data Structures

ClksOptimal — AI SaaS Platform for Content Creators *ClksOptimal.com*

- Founded and built a web platform that analyzes video titles and thumbnails, evaluates click-through-rate potential, and generates AI title rewrites and thumbnail concepts for creators.
- Integrated Stripe to support tiered subscription pricing and recurring billing.

RetsCalendar — Cloud-Hosted Calendar Web App (Live)

- Built a publicly accessible calendar web application backed by a PostgreSQL database.
- Configured AWS hosting, networking, and domain setup; owned deployment from development to a live production site.

Tech: AWS, JavaScript, HTML/CSS, PostgreSQL, Networking

EXPERIENCE

Student Analyst Sept 2024 – Present
Illinois State University *Normal, IL*

- Serve as first point of contact for account and access issues for students, faculty, and staff.
- Triage technical tickets and route escalations to the correct specialist teams.
- Analyze student data and build departmental assessment reports; partner with faculty to turn findings into student engagement strategies.

IT Intern June 2025 – July 2025
Ohnward Bancshares *Maquoketa, IA*

- Independently designed and built an employee-onboarding chatbot in Microsoft Copilot Studio in two weeks, meeting a CTO-defined rubric and adjusting scope to deliver on time.
- Troubleshot staff hardware and software, managed user accounts and access permissions, and documented IT processes for team knowledge sharing.

UX Intern June 2023 – Aug 2023
Innovate 120 *Maquoketa, IA*

- Conducted user research and usability testing to solve product challenges for enterprise clients.
- Developed wireframes and prototypes informed by market and consumer research.

EDUCATION

Illinois State University Expected May 2027
B.S. in Computer Science *Normal, IL*

- GPA: 3.41 / 4.00
- Relevant Coursework: Data Structures, Databases, Theory of Computation, UML

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (In Progress) | Data Scientist: Machine Learning
