CERTIFICATIONS

AWS Certified Cloud Practitioner

STRENGTHS

Leadership · Problem Solving · Analytical Thinking · Fast Learner · Communication · Time Management · Curiosity

Computer Science student (Class of 2027) and AWS Certified Cloud Practitioner who ships real, production software — from a cloud-hosted calendar web app to an AI onboarding chatbot. Strong in problem solving and teamwork, with hands-on internship experience across IT, software, and UX.

EXPERIENCE

IT Intern

June 2025 – July 2025

Ohnward Bankshares

Maquoketa, IA

- ▶ Solely designed and built an employee-onboarding chatbot in Microsoft Copilot Studio, streamlining ramp-up for new hires.
- ▶ Maintained and supported bank staff devices, troubleshooting hardware and software issues across the organization.

Student Analyst

Sept 2024 – Present

Illinois State University

Normal, IL

- ▶ Resolve university account and access issues for students, faculty, and staff as a first point of contact.
- ▶ Triage and route technical tickets to the correct specialist teams, keeping resolution times low.

UX Intern

June 2023 – Aug 2023

Innovate 120

Maquoketa, IA

- ▶ Partnered with billion-dollar companies to identify and solve real UX problems in their products.
- ▶ Conducted market and consumer research to inform design and product recommendations.

PROJECTS

RetsCalendar — Cloud-Hosted Calendar Web App ★ Featured

Live ↗

Designed, built, and deployed a full calendar web app live to the internet — handling hosting, networking, and domain setup end to end on AWS to ship a publicly accessible product.

AWS · JavaScript · HTML/CSS · Networking · Deployment

Arduino Facial Recognition

Built a facial-recognition system on an Arduino with a camera module, bridging embedded hardware with computer vision on a constrained device.

Arduino · Computer Vision · Embedded C++

FTC Competitive Robotics

Helped design and build a competitive robot for FIRST Tech Challenge, advancing the team to the state competition.

Robotics · Java · Teamwork

EDUCATION

Illinois State University

Normal, IL · Expected May 2027

B.S. in Computer Science

GPA 3.41 / 4.00
